

Pluralistic Ignorance Survey Report

Responses: 144

Scenario 1

"Kristi & Jack were having dinner together with a group of friends. Their friends noticed that Kristi was visibly upset about something, and so were quick to ask about it. Jack, being in a good mood and not wanting to have it spoiled, jumped into the conversation and advised Kristi to cheer up. He commented on how she looks better when she smiles anyways. How appropriate was Jack's comment toward Kristi?"

Scenario 2

"Mark and Tina are anxious about an upcoming presentation. All their friends were in attendance to lend their support. Ethan, a close friend of theirs, walks over and encourages Tina saying, "you have nothing to worry about: you look great". He then turns to Mark and says, "you have nothing to worry about either, you are so smart!". How appropriate was Ethan's comment toward Tina?"

Scenario 3

"Tim invites most of his friends to a football match. However, Lilly, one of his friends, is disappointed about not receiving an invite. Tim tells Lilly that he didn't invite her because he thought she wouldn't enjoy it since football is a "guy thing". How appropriate was Tim's response toward Lilly?"

Scenario 4

"Two coworkers Rebecca & Michael, get into an argument during their lunch break. A few other colleagues are present when the argument broke out. Rebecca, clearly enraged, is arguing with a raised voice while Michael continuously tries to speak over her. When their coworkers try intervening, Michael tells everyone that he will let it go since she is always irrationally dramatic. How appropriate was Michael's response?"

Scenario 5

"Three friends Halle, Grace, and Brad were having a discussion about women in STEM. Halle and Grace were strongly advocating for women in STEM saying, "there need to be more opportunities for women". While Brad gave his point of view saying, "there are enough opportunities for everyone, but women are just not as interested in STEM". How appropriate was Brad's opinion?"

Scenario 6

"Katherine is the only female in her engineering class, among 13 other males. She constantly finds that her male professor gives her extra attention she doesn't ask for. Both factors make her feel incompetent. After one of her classes, she complains about it to her friend George who points out how she should feel lucky to have someone trying to help in such a competitive male-dominated field. How appropriate was George's opinion?"

Scenario 7

"Cassey and Gabriel have been in a math tutoring class for a while. During one of their tutoring sessions, they both find themselves struggling with a specific problem and so they both ask for help at the same time. Their tutor, Anthony, wants to explain the problem to both and so he tells Cassey he will be able to explain it to Gabriel quickly so he will attend to her after him. How appropriate was Anthony's behavior?"

Scenario 8

"Chris wasn't feeling great, so he visited the doctor's office. At the doctor's office, he sees female nurses walk in and out of the waiting room. After a while when another woman walks in the room, Chris jumps up and inquires after the doctor saying, "when will the doctor be seeing him?". She tells him that she is the doctor and is now ready to see him. How appropriate was Chris's inquiry to the doctor?"

Total			

Scenario 9

"Cole and Trevor were watching videos of soccer highlights on social media. They came across one depicting a goal that was scored from about the halfway line, something they considered an exceptional feat. Impressed, Trevor complimented the player's skill, but Cole discredited the striker's skill by saying, 'her goal wasn't impressive, the goalkeeper was just terrible'. Trevor was surprised by Cole's opinion because Cole had said quite the opposite about a similar goal that was scored by Cristiano Ronaldo (a world-famous soccer superstar) earlier. How appropriate was Cole's differing opinion?"
